

America **Loves AlturnaMATS®**

The best performing ground protection mats on the market saved the lawns surrounding the Statue of Liberty

New York Trenchless, Inc., selects non-slip AlturnaMATS to safeguard grounds

Peter Kenny, President NYT. . . "For our Statue of Liberty HDD project we used your ground protection equipment exclusively with more than satisfactory results. We had to transgress brick pavers, manicured lawns and concrete walkways. In each case, we prevented scaring and disruption of surfaces by using *AlturnaMATS* under our equipment. At one time we used plywood which was slippery and splintered. Please continue to supply our firm with your excellent product."

Isn't it time your firm specified these tough, 1/2" thick polyethylene mats?

- Withstand 60 ton loads
- Reuse hundreds of times
- Less expensive than fiberglass. . . lasts longer than plywood
- Field tested in record heat and cold
- Proven best diamond plate design on both sides
- 4'x8', 3'x8', 3'x6', 2'x8', 2'x6' & 2'x4' sizes available

NEVER GET STUCK AGAIN . . . Specify AlturnaMATS . . . the Tough Ones.

These unretouched photos depict a real situation in which a heavy vehicle with chains got stuck in a deep mud hole.

Driver called for help. *AlturnaMATS* were brought to the scene and tied to the chains. By putting the vehicle in reverse, the *MATS* were drawn under the wheels. A second *MAT* was placed behind the wheels enabling the vehicle to back out easily.

AlturnaMATS . . . Environmentally Friendly Ground Cover MATS

All types of vehicles and equipment pass easily over lawns, through mud and across terrain when *AlturnaMATS* are used.

Durable

- Made of 100% recycled polyethylene plastic
- Super tough, weather-proof mat is 1/2" thick
 - flexible enough to conform to ground contour
 - strong enough to support tons of equipment
- Long lasting - virtually indestructible - UV resistant
- Field tested in the record-breaking cold and heat

Convenient

- Portable - hauls easily in a pick-up truck
- Maintenance free - hose off with plain water
- Handi-hook available for moving mats around site
- Easy to handle - holes for rope handles or hook

Economical

- Competitively priced
- 100% reusable, 100% recyclable
- A low-cost alternative to fiberglass reinforced mats
- More cost effective than plywood

Guaranteed

AlturnaMATS feature a Limited Lifetime Warranty from cracking and breaking.

Sizes to Suit Your Need

Size	Item Number	Approx. Ship. Wt. lbs. kg.
4' x 8' (1.22 x 2.44m)	AM48	86.00 (39.00)
3' x 8' (0.91 x 2.44m)	AM38	64.00 (29.25)
3' x 6' (0.91 x 1.83m)	AM36	51.00 (23.13)
2' x 8' (0.61 x 2.44m)	AM28	43.00 (19.50)
2' x 6' (0.61 x 1.83m)	AM26	32.25 (14.62)
2' x 4' (0.61 x 1.22m)	AM24	21.50 (9.75)
Hand Hook	AMHH	2.50 (1.13)
